EUROPEAN TRUCK & TRAILER PARTS

## CV SMART CHOICE

The leading automotive parts distributor in Europe

CV Issue 14

### Advanced Commercial Lubricants

The most advanced technologies. The highest quality base oils.

**ONLY from your local IFA Member**

Made in the UK • Maintain OEM warranties

Fully synthetic low SAPS engine oils for CV/LCV

Semi synthetic & mineral multi-fleet engine oils

Hydraulic oils (incl. mineral, high VI & biodegradable)

Gear oils • Transmission fluids

Greases • Plant oils • Agricultural oils

Ancillary products

Protect your investment

AD Lubricants surpass the ever-evolving demands of the world's leading engine & driveline manufacturers

Cutting-edge research & stringent product testing guarantee it

**It's vital to use the correct specification oil**

Be sure you're fitting the right oil to avoid invalidating a vehicle's warranty

Mixing different specification oils can cause engine problems & expensive damage

With four different 10W-40 grade oils alone (in addition to all the other grades) you must check you're fitting the right oil

Your local IFA Member can help - ask them to check the application

Oils available in:

20L 25L 205L

Greases available in:

## Fit new BPW genuine brake shoes for performance and security

Reliability is vital for transport operators facing increasing costs and regulation. The drive to minimise trailer downtime, maximise fleet utilisation and increase profitability has seen a shift towards replacing brake shoes and away from relining. Relining brake shoes negatively impacts both safety and performance over the long term, despite apparently lower short-term cost.

Brake noise, vibration and premature lining degradation can result from fitting a new trailer with old and/or damaged brake platforms. All BPW brake shoes come with new rollers, avoiding seizing or shot-blast damage, which affect brake performance and cause impact wear on the camshaft.

Friction surfaces of BPW brake pads and linings complement the metallurgy in BPW disc or drum brakes, ensuring best possible braking and wear behaviour for your trailer. Fitting new BPW brake shoes gets the most out of your BPW axle and suspension systems.

Long service life doesn't happen by chance. Years of experience and extensive testing on BPW brake drums and shoes ensure low wear and consistent, efficient braking right to the end of the service life. This is particularly important where brake drum torque is higher and shoes are from smaller brake sizes used with 19.5", 17.5", 15.0" wheels (e.g. double deckers) where increased height increases braking challenges.

Quality engineering sets BPW brake shoes apart. Made in their own factory using a specially-developed steel alloy, the pressed and cold-hardened shoes are dip-coated with zinc-phosphate (KTLZN) to enhance surface protection. The shoe is profiled to match the BPW brake drum, so there is no difference between BPW's OE and the Aftermarket.

It pays to fit new BPW genuine brake shoes. Call your local IFA Member to order the full BPW range.

## Make manual cranking a thing of the past

JOST redefined trailer support legs with their Modul B range of individually-tailored landing gear. Now the days of manual cranking could be over with the latest Modul B innovation - the option of electric actuation.

A trailer's landing gear (or support leg) is a critical structural element which significantly impacts on efficiency and overall fleet availability. JOST landing gears are extremely versatile and hard-working. Virtually any customer specification can be satisfied thanks to their modular design.

The patented drive in all Modul B landing gears provides optimum protection and eliminates the need for maintenance. The highly efficient geared drive enables operators to achieve up to 15mm lift per handle turn, in high gear. Switching between high and low gear is safe and easy, and a high-quality powder coating protects the landing gears.

If access to the landing gear is restricted, or the trailer needs frequent coupling/decoupling, JOST has developed the new Modul E-Drive. Operating at temperatures as low as -20°C, this electric landing gear sets new standards in comfort, safety and efficiency. Strenuous manual cranking is eliminated, making semi-trailer coupling/decoupling far simpler.

Button operated, the Modul E-Drive shuts down automatically when the landing gear is fully retracted or there is ground contact. A crank handle is supplied for manual cranking, to compensate for height difference between the truck and trailer, as a backup and to optimise flexibility.

The Modul E-Drive incorporates familiar and reliable Modul components and is available in the same mounting and bolting heights and feet as the Modul B. Lifetime costs are very low thanks to the wear-resistant design, long-term lubrication (applied in the factory) and a maintenance-free internal design.

Call your local IFA Member to find out more and to place your order for the full JOST range.

# LEMFÖRDER

## Replacement Parts in Original Equipment Quality

Lives depend on the quality of steering and suspension components fitted on your customers' vehicles, so only the best will do. That's why leading vehicle manufacturers put their trust in LEMFÖRDER as original equipment. You can too - ask your local IFA Member to order genuine LEMFÖRDER replacement parts and keep your customers and your reputation safe.

LEMFÖRDER - Safety in Steering and Suspension.

# focus on apprenticeships

Apprenticeships benefit employers and individuals by boosting the skills of the workforce and helping to improve economic productivity. The IFA has teamed up with Reaseheath College to start training apprentices in their own businesses (see inset boxes alongside) and there are opportunities for apprentice-training partnerships with our customers.

An apprenticeship is an excellent way to gain workplace experience and skills in a specific job role, along with a nationally recognised industry qualification, while earning a wage. For the employer, it's a great way to recruit a member of staff who will learn on the job.

Reaseheath College, based in Cheshire is the largest specialist college in the UK. Their apprenticeships scheme offers strong industry links and partnership work with employers such as JCB and APLANT. Reaseheath have a wealth of experience delivering tailored programmes around the country and with over 1500 apprentices and an 81% overall apprenticeship success rate, it's clear why the IFA look to them for their excellent training and services.

Apprenticeships cover topics such as health & safety, customer relations, receiving, storing, selecting and issuing parts, and electronic communication. Apprentices achieve Level 2 and 3 Diplomas in Vehicle Parts Operations based on knowledge and competencies, as well as Maths, English and IT training if required.

Recruiting an apprentice is a great way to broaden and motivate your workforce and integrate younger employees. Consider an

apprenticeship to upskill and/or retrain existing staff - a great way to standardise processes across branches. Apprentices learn new skills and benefit from improved productivity and work quality.

Reaseheath provide a comprehensive recruitment service, either on their site or at your business premises. The content of apprenticeships can be tailored to your company's needs and they can promote your vacancies to their students as a career.

Apprenticeships are now more rigorous, better structured, independently assessed and more clearly aligned to the needs of employers.

If you would like to train new staff who will manage your parts inventory, stores or in a broader parts based role, there could be an opportunity to work in conjunction with your local IFA Member to broaden the training. Talk to us if you are interested - the relationship could involve anything from a brief placement with us right through to a full apprenticeship in our business before an individual joins you.

Government funding may be available, e.g. employers pay no NICs for apprentices under the age of 25 (earning up to £43k pa) and get £1000 towards costs for 16- to 18-year olds.

The IFA is benefitting from training its apprentices with Reaseheath College. Perhaps your business could benefit, too? Maybe we could work together?

For more information, get in touch with us at your local branch, or visit Reaseheath's website for more information [www.reaseheath.ac.uk/apprenticeships/](http://www.reaseheath.ac.uk/apprenticeships/)

*"It had been a long time since we'd started a young person at Linings & Hoses, when I recruited an apprentice through the Reaseheath scheme last year. Now I have a young person in my business, learning all the elements of becoming a CV parts person."*

*Our apprentice, Matthew [right], will provide future staffing, enabling me to grow my business from within. Reaseheath College fully supported me with the interview and recruitment to ensure I got the right fit in my business.*

*I recommend this service to everyone in the aftermarket as a way to integrate young people and promote opportunities for careers in the parts sector."*

Neil Smedley, Linings & Hoses Ltd

*"Wrightpart decided to take part in the scheme last year when we were looking for a young person to recruit into our business. We hadn't employed an apprentice before. We contacted Reaseheath College for information on the content of the apprenticeship and available funding. We provided details of the vacancy and the College advertised it for us."*

*They identified several young people, who I interviewed. Thomas was appointed as an apprentice. The whole process was very straightforward.*

*Thomas is proving to be a valuable asset to the company. He's developing his knowledge and skills whilst attending block release at the College. He's really enjoying the apprenticeship scheme and gaining benefit from it.*

*I recommend the process to other companies in the motor trade as a way of gaining, training and developing young people in their business."*

Steve Wright, Wrightpart Ltd

## THE ART OF LIGHTS

## GATES T38667

NEW

### DriveAlign® Heavy Duty Tensioner T38667

Popular Mercedes Applications

- An advanced tensioner
- Superior performance
- Avoids unnecessary maintenance
- Significantly reduced cost/km

True heavy duty performance  
OE tested to over 500,000km

- Replaces the original tensioner on OM470 engine families: Actros, Antos, Arocs, Travego & other buses
- Combined fan & water pump belt drive tensioners on a common bracket allow independent operation
- Optimised for strength
- Labyrinth sealing technology prevents premature failure from dirt ingress
- Extended life due to belt tension damping system - reduced arm movement, elimination of belt flutter & maintenance of belt tension
- Faster response to fluctuating power requirements results from hydraulic struts not being required

**SHAPELINE**  
DESIGN YOUR LIGHT

## UPGRADING HALOGENS TO LED?

The NEW Shapeline series is a true innovation in LED vehicle lighting and it has just arrived in the aftermarket.

You don't need to be convinced about the argument for upgrading halogen lights. It's very simple. LED = lower vehicle lifetime cost. LED lights are longer-lasting, brighter and more energy efficient.

And now they're an opportunity to make a statement. Shapeline allows you to customise your vehicle or your fleet with your own design, a unique and consistent look with a customized configuration of lamps.

With HELLA you expect innovative technology and high quality products and Shapeline certainly delivers. Indeed it surpasses expectations with the variety of shapes and sizes available to provide almost infinite design freedom.

Whether front, side or rear, whatever size or series, be it small or large, the variety and range of shapes and combination options, paired with a technically optimized product make the NEW Shapeline series a true innovation in vehicle lighting.

Design your light: [www.hella.com/shapeline](http://www.hella.com/shapeline)

## PROFESSIONAL CLEANING

### Hot Water Pressure Washer with Steam Mode

- 3-Piston axial pump, ceramic pistons
- 4-Pole motor with long-life bearings
- Simple user-friendly controls

**Single Phase** 1.077-901.0  
- High performance, reliability & economy  
- ecoefficiency mode gives up to 20% energy savings without compromising performance

- Model: HDS 7/10-4 M
- Power: 3.4kW (240V)
- Pressure: 30-100 bar
- Water Flow: 350-700 litres/hr

**ONLY £2595**  
5 Year Lease £13.77 pw

**3 Phase** 1.071-902.0  
- Very high water flow/pressure for the toughest tasks  
- Ideal for regular, heavy-duty use

- Model: HDS 10/20-4 M
- Power: 7.8kW (3 phase 420V 50Hz)
- Pressure: 30-200 bar
- Water Flow: 500-1000 litres/hr

**ONLY £3195**  
5 Year Lease £16.96 pw

### Floor Scrubber Drier

- Outstanding results with ease!
- Heavy duty, ideal for small & medium hard floors
- Keeps workshops safe & VOSA compliant
- Cleans/dries hard floors in one pass
- Deep cleans heavily soiled areas

- Model: BR 40/10 C Adv
- Working Width: 400mm
- Fresh/Dirty Tank: 10/10 litres
- Power: 1.9 kW (240V)

**ONLY £1565**  
5 Year Lease £8.31 pw

Ask your local IFA Member to book a FREE SITE SURVEY TODAY!

### Indoor / Outdoor Sweeper

- Sweeps 7x faster than a conventional broom
- Dramatically reduces dust - consistent, thorough results
- Adjustable side brush cleans right up to kerb edges
- Cleans paths, halls & warehouses quickly & efficiently
- Easy to empty 20 litre hopper
- Main & side brushes fully adjustable for different surfaces
- Folds flat for easy storage

- Model: KM 70/20 C
- Working width: 480mm (700mm with 1 side brush)
- Container capacity: 42/20 litres (gross/net)
- Dimensions (l x w x h): 1300 x 765 x 1035mm

**ONLY £495**

## Commercial Brake Testers DVSA Approved PC Controlled LMBT 13 & 18

Flexible control and viewing system plus optional wireless printer

- Galvanised roller set with motors mounted under the rollers
- Level raised rollers (dual direction testing option)
- Splash proof roller drive
- Applied brake test for parking brake
- PC controlled (PC, 27" flat screen, keyboard, mouse, A4 printer)
- Software test programmes
- IR remote control & remote IR receiver
- LMBT 18 can be updated to full DVSA specification for ATF & Tacho

Options include (extra cost):

- touch screen remote control
- additional monitors
- unregulated 4WD kit
- drive over cover plates (5T axle load)
- side mounted guard rails for roller set
- steel installation cassette

### 13 Ton Capacity (LMBT 13)

Classes 3, 4, 5L & 7  
2 x 9kW motors (IP54)

**ONLY £14,150**  
5 Year Lease £75.10 pw

### 18 Ton Capacity (LMBT 18)

Classes 4, 5L & 7  
2 x 11kW motors (IP54)

**ONLY £19,795**  
5 Year Lease £105.07 pw

## Arena XL441 18T

As used in DVSA ATF Test Lanes - includes DVSA database

As LMBT 18, plus as standard:

- 8 cell weighing system
- Extra 27" Flat screen monitor kit
- Fully Auto, Semi Auto & Manual test programmes
- Analogue dial or bar graph display (operator choice)
- Centre cover between rollers or side plates for pit
- Remote access software upgrades/diagnosis (internet access required)
- Add further Test Lane facilities to the control software
- Roller locking
- 4WD Testing

Options in addition to those available with LMBT 18 include (extra cost):

- Auxiliary IR receiver with 25m extension cable (198700UF5A)
- Pit Safety System (1987009E20A)
- Hydraulic load simulator with floor mounting kit
- Additional 32" LCD Display (or swap for 2 monitors included)

**ONLY £27,950**  
5 Year Lease £148.35 pw

## HIGH PERFORMANCE PROTECTION

The Donaldson replacement air filtration element is designed for the Mercedes-Benz® Actros® with filter elements **A0040946804 (Donaldson DBA3746)** or **A0040946904 (Donaldson DBA3745)**.

It combines two in-house-developed, state-of-the-art technologies:

- PowerCore® filtration technology
- Ultra-Web® media technology

The result is a high-performance air filtration element that meets OE specifications.

Order from your local IFA Member.

FLUE KIT INCLUDED

### No space for a bulk fuel tank? PROHEAT is your solution!

#### Stainless Steel Flue Kit INCLUDED:

- Gives approx. 5.2m (17ft) ground clearance
- 4 x 1m Flue pipes
- 1 x Terminal
- 2 x Adjustable wall fixing brackets
- 1 x High temperature silicone rubber roof seal & fixing kit for profiled or corrugated roof & cladding
- 1 Tee-Piece (flue to heater)
- Additional 1m flue pipe available:

For Model	Price
PROHEAT30,40,60	<b>£30</b>
PROHEAT80	<b>£37</b>

#### Use any of these fuels:

- Used Oil\*
- 35 Second Heating Oil/Diesel
- Processed Fuel Oil (PFO)
- Rapeseed, linseed & some veg. oils
- Bio Diesel

#### Stainless Steel Flue Kits from £269

Stainless steel flue kits (6m ground clearance):  
98.085.746 SB40 98.085.100 SB60  
98.085.170 SB80/SB110

**Optional extras (additional cost):**  
Motor/Pump Kits: to connect to a bulk fuel tank (pipework/electric cable not incl.)  
98.085.399 Connects to bottom outlet, gravity fed, max distance 10m

98.087.161 Connects to top outlet &/or above 10m distance  
98.085.890 Digital Thermostat/Timer

**Main Fan Filter Kits:**  
98.085.541 SB40/60 98.085.542 SB80/110

# BIG BRAKE TESTER OFFERS

FROM GEMCO - THE UK EXPERTS!

## SHERPA KOMPAKT 15

- Bi-directional and 4x4 testing as standard
- Unique, planet-gear drive gearboxes
- 11kW motors
- 15 tonne test weight
- Tablet operation as standard
- ATF Approved and Class IV, VI and VII ATL

ONLY **£22,495**  
5 Year Lease £119.40 pw

## SHERPA BPS TWIN 18

- Bi-directional and 4x4 testing as standard
- Unique, planet-gear drive gearboxes
- 11kW motors
- 18 tonne test weight
- Tablet operation as standard
- ATF Approved and Class IV, VI and VII ATL

ONLY **£26,495**  
5 Year Lease £140.63 pw

## SHERPA MOBILE

- Bi-directional and 4x4 testing as standard
- Unique, planet-gear drive gearboxes
- 11kW motors
- 18 tonne test weight
- Tablet operation as standard
- ATF Approved

ONLY **£28,495**  
5 Year Lease £151.24 pw

**DEDICATED AFTERSALES SERVICE TEAM LOCATED THROUGHOUT THE UK**  
**ALL BRAKE TESTERS COME WITH FREE DELIVERY, INSTALLATION & OPERATOR TRAINING**  
**12 MONTHS FREE CALIBRATION INCLUDED WITH FREE SOFTWARE UPDATES FOR LIFE**  
**TABLET & PC PACKAGE INCLUDED INSTALLATION TUBS INCLUDED\***

\* WARRANTY SUBJECT TO MAINTENANCE - \* INSTALLATION TUBS INCLUDED WITH KOMPACT AND TWIN MODELS ONLY - \* EXCLUDES CIVIL AND ELECTRICAL WORKS - \* OFFERS VALID UNTIL 30.06.2018

## NEW Induction Heating Tool (76171)

- High power, high spec, liquid-cooled industrial unit with 3 heating modes
- Replaces dangerous/difficult-to-control oxy-acetylene gas heating with simple to use, highly effective, electrical induction heating
- Controlled, safe, efficient heating of ferrous & some non-ferrous metals
- Precise focusing tip - accurate & fully adjustable
- Computer controlled, with universal remote-control software to link to external digital or analogue system for maximum control
- Quiet fan-assisted radiators for continuous use
- Specification:
  - Input power: 3.5kW
  - Voltage supply: 230V 50/60Hz
  - Output power: 3kW (16A supply)
  - Water tank: 1.5 litre
  - Dimensions: 430 x 200 x 200mm
  - Operating frequency: 20-60kHz
  - Max. current: 16A
  - Weight: 7.8kg approx.

**ONLY**  
**£2575**  
5 Year Lease £13.67 pw

**HOT**  
**SPECIAL**  
**OFFER**

## Digital Multimeter (41821)

- Automatic & manual ranging for voltage, current, resistance, diode & continuity testing
- Backlit LCD screen, DWELL, Tach, MAX, auto power off, continuity buzzer & data hold features
- Includes: test leads, case & 2 x AAA batteries
- Specification:
  - DC & AC voltage: 200mV/2V/20V/200V/600V
  - DC & AC amps: 2A/10A
  - Resistance: 200Ω/2kΩ/20kΩ/200kΩ/2MΩ/20MΩ
  - DWELL: 4CYL/6CYL/8CYL; TACH: 4CYL/6CYL/8CYL

**ONLY**  
**£35.99**

## FPM Pump Sprayer 2 litre (82456)

- Fluoropolymer Elastomer Rubber seals & gaskets resist automotive fluids: brake cleaner, fuel, oils, lubricants, solvents, etc
- Working capacity 2 litre (+0.5 litre air reserve)
- Translucent high-density polyethylene
- High performance pump, adjustable spray pattern tip & safety pressure release valve

**ONLY**  
**£15.99**

## NEW Punch & Impact Driver Kit 25pc (63528)

- Popular cold chisels, centre & pin punches
- Chrome vanadium steel, correctly hardened & tempered
- Forward/reverse rotation impact driver
- 1/4 Drawer EVA insert tray (138 x 270 x 52mm), compatible with Draper & Draper Expert tool chests & other similar chests
- Includes:
  - 1/2" sq. dr. Impact driver
  - Cross slot bits: No.1, No.2, No.3, No.4mm
  - Adaptor 1/2" Sq. Dr. 8mm Hex
  - Taper pin punch: 3 x 9.5 x 120mm
  - Cold chisel: 12 x 9.5 x 130mm
  - Utility chisel: 5 x 9.5 x 130mm
  - Parallel pin punches: 2 x 8 x 115, 3 x 8 x 125, 4 x 9.5 x 150, 5 x 9.5 x 165, 6 x 12 x 180, 8 x 12 x 180mm
  - Plain slot bits: 5, 6, 8, 10, 12mm
  - Hex bits: 4, 5, 6, 8mm
  - Centre punch: 9.5 x 120mm

**ONLY**  
**£50.50**

## Plasma Cutter 230V 40A (85569)

- Microprocessor controlled inverter technology
- Thermal overload protection
- Plasma torch, earth lead/clamp, air regulator, air hose, chipping hammer, brush, face mask
- Specification:
  - Rated max. supply current: 4kW
  - Cutting current range: 20-40A
  - Input current: 32A
  - Cutting range: 12mm (mild steel)
  - Amperage at 60% duty: 40A
  - Dimensions: 460 x 270 x 345mm
  - Air required: 8.8cfm
  - Weight: 10kg

**ONLY**  
**£275**

## Welding/Grinding Helmet (34347)

- Ultra-fast 0.04s DIN 9-13 shading, triggered by striking arc (solar powered)
- Built-in switch for welding/grinding capacity
- Built-in variable sensitivity & delay setting
- High impact nylon with adjustable headband
- Meets EN175, BS EN 6100-6-3, BS EN 6100-6-1

**ONLY**  
**£39.50**
